action Occurs and Prices Advance. A Fairly Good Business in Corn, on a Very Narrow Range of Prices-Oats Dall and

MONEY, BONDS AND STOCKS.

Lower-Provisions Active and Stronger.

Light Business in New York, with a Duil but Firm Closing. NEW YORK, July 27. - Money on call was easy

at 101; per cent. Prime mercantile paper, 4 26 per cent.

Sterling exchange was dull and weak at \$4.86 for sixty-day bills, and \$4.88 for demand. The total sales of stocks to-day were 173,158 shares, including the following: Canada Southern, 4,805; Delaware, Lackawanna & Western, 11,556; Erie, 4,410; Kansas & Texas, 4.680; Louisville & Nashville, 7,310; Northwestern, 6,830; Northern Pacific preferred, 3,114; Reading, 38,510; Richmond & West Point, 8,530; St Paul, 20,202; Union Pacific, 9,580; Western

Union, 70,037. The stock market seems to have fallen into the summer duliness again, and to-day's transactions were the most uninteresting for weeks, the dealings being on a small scale, while the fluctuations were confined to small fractions throughout. There was small demand for stocks, but there were none pressing for sale. The decision in the lows case was not regarded with as much favor as last evening, which created a hesitation, and the "bears" were quick to take advantage of the utterances of Commissioner Blanchard in regard to trunk-line affairs, and used them in hammering the list during the first hour. The news of the day was not of a character to have any special effect upon prices, and the usual exodus of brokers from the city, to remain over until Monday, was the cause of the lack of interest in the dealings which was so noticeable throughout the entire day. The foreigners were moderate buyers, and, with limited purchases of commission houses, furnished the support of the circulation of disturbing reports, kept prices down until the last hour, when the general "bullish" feeling became more pronounced, the early losses were generally wiped out, and in some cases fractions were gained. St. Paul and Reading were leading stocks, though the dealings in both were very much reduced from the totals of the past few days, and their fluctua- | .074c, and September closed at 8.30c; January tions were generally insignificant, neither being traded in over a range of more than I per cent. The only decided movement of the day was in St. Louis, Alton & Terre Haute, which, after selling at 45 dropped to 424 on very small dealings. The higher figures from London, caused by the decision of Judge Brewer and the strength of our market last evening, opened the list from } to } per cent, above last night's prices, but the market lacked vim, a drooping tendency soon appeared. and before the close of the first hour St. Paul and Wheeling & Lake Erie preferred had each lost | per cent. All feature then disappeared from the trading, though a slow and steady recovery took place, which, by I P. M., had brought most of the list about up to the opening figures. There was better buying in the last hour, however, and more animation, and many stocks gained fractional amounts, which served to bring them up above their first prices, and the market finally closed dull but firm at irregular

The railroad bond market was quiet, with sales of \$1,372,000, of which \$156,000 were in Kansas & Texas sixes, and \$105,000 in Texas Pacific seconds. The Fort Worth & Denver firsts were also prominent in the dealings, but the market presented no other feature, and, while the tone of the market was generally firm, final changes are irregular and for small fractions in most cases. Among those which are higher, Central Iowa firsts certificates rose 3, to 804: Cedar Falls & Minneapolis firsts, 2, to 67, and Ft Wayne firsts, 21, to 142. The losses comprise Indiana, Bloomington & Western first certificates, 21, at 85, and Wabash seconds certificates, 3, at 84.

changes of small fractions from last night's

Government bonds were dull and steady. State bonds were dull and without feature. Closing quotations were:

Butter dull and weak; Western, 11 20c. Cheese quiet and unchanged.

CHICAGO, June 27. - Wheat to-day suffered a decline, early, on selling by a leading operator, but the situation was strong enough to counteract this before the first hour ended, and for the balance of the session prices ruled several fractions better than the closing prices yesterday. The selling was about offset by the buving of two other heavy Chicago speculators. During the early weakness here outside markets were all relatively stronger, and this helped the buyers. The total receipts of wheat to-day were the largest of the season, reaching 615,000 bu. The receipts were counteracted in part by

the clearances, which aggregated 193,-000 bu of wheat and flour from Atlantic ports. St. Louis sent "bear" news, but the cables were "builish" on account of wet weather on the other side. There was a good deal of quiet buying for foreign account by agents here, and this kept August above 80c. Prices ranged: August, 79te down to 79t 279te, up to 80te, and steady at 80t 280te, during the last bonr: September, 79; 2 79;c, and up to 80 ic, closing at 80 to August, and 80 to September. There was a fairly good trade in corn, but the range of prices was parrower than for some time, an evidence that trades, as far as the local crowd is concerned, are pretty well evened up. The opening prices were lower by a fraction, and the first action was a little decline on the large receipts and some local selling. Prices soon rallied to and above the closing of last night and continued strong to the close. August ranged between 44%c and 45%c, closing at 45%c; September closed at 45tc. Oats were dull, and declined to for all deliveries except July. This future remained steady on account of there being still some little demand to cover "shorte," while only a few operators appeared as seilers. The provision market was more active and stronger, and the advancing disposition noted on previous days this week was more pronounced and the appreciations larger, especially on pork, which advanced 40 & 424c from opening figures and closed at about outside prices and 37-c above yesterday's last sales. There was good miscellaneous buying by the "shorts" Outside orders also came in more freely Holders at times sold freely, but their offerings were rapidly absorbed without causing any recession in values. September opened at \$13.871 and closed at \$14.25; January at \$12.95 @ 13.05. Lard was moderately active, and closed .10c better; September sold at 8.70 &8 85c, and closed at 8.80c; May at 7.97ic. Short ribs advanced .05@

sold at 6.65 @ 6.67 c. ranged as follows:		the leading		futures

DUN & CO.'S REVIEW.

Improvement Continues, Though the Speculative Markete Are Not Active.

NEW YORK, July 26 .- R. G. Dun & Co.'s Weekly Trade Review says: Improvement continues. The collapse of the Western Iron Manufacturers' Association has set nearly all mills at work and makes pig-tron firmer, but bar-iron weaker. Stocks have been strengthened by a decision arresting the enforcement of the Iowa rates. Wars of rates do not cease, and interstate decisions on any important cases are deferred. The net earnings of eighty-two roads in May showed a loss of 8.4 per cent., though their gross earnings gained 6.4 per cent, and the game in gross earnings for July have been less than half as large. Statements show that 2.428 miles of road have been placed in the bands of receivers during the baif year, with \$153,650,000 bonds and stocks, against only 428 miles and \$28,200,000 bonds and stocks for the first half of last year. But the average price of stocks has risen about \$1.40 per share, though less strong of late.

Reports of domestic trade are almost uniformly encouraging, for, though duliness yet prevails, improvement appears at many points. The clearings at all cities exceed last year by 10.3 per cent., and outside New York by 5.5 per cent, with larger gains at Boston, Chicago and New Orleans. The complaints of slow collections increase, however, especially in connection with distribution of manufactured goods. At Philadelphia and Pittsburg better feeling appears in metal branches, and at Baltimore and Detroit in dry goods and boots and shoes, but Eastern manufacturers are still uncertain. Foreign trade for June showed imports exceeding exports by \$18,206,340, and for the half year the excess was \$61,463,220. Against this the net exports of gold and silver for the half year were \$17,488,831, so that when interest and undervaluations are considered the movement of foreign capital this way appears to have exceeded \$100,000,000 for the half year. Exports of merchandise from New York in July show a decrease of 8 per cent in value, against 1 per cent. increase imports, and for the past year exports have been smaller than in any other year since 1878, except the year 1885-6, whose 1881-2, and then by less than \$1,000,000.

imports have only been exceeded in one year, The speculative markets are not active, and wheat has changed but little. Crop prospects have caused corn to decline 1; cent and oats ic. but lard, pork and live hors are stronger. Oil is lie weaker, and cotton and coffee are unchanged. The treasury has taken in during the past week \$2,600,000 more money than it has paid out, but reports from all interior points represent money in ample supply for all legitimate business, with a general deficiency of demand. Once more the country closes a crop year with a surplus of over 51,000,000 bushels of wheat on hand unsold, and the latest reports indicate that the supply for export during the coming year will exceed 145,000,000 bushels, exports for the past year having been less than 120,000,000

The failures attending half yearly settlements have been numerous. For four weeks the number in the United States has been 821, against 594 last year, but in Canada only 82 against 95 last year. The business failures during the last seven days number 221, as compared with 228 last year and 240 the week previous to the last. For the corresponding week of last year the failures numbered 184.

TRADE IN GENERAL.

Quotations at St. Louis, Philadelphia, Balti-

more, Cincinnati and Other Points. ST. LOUIS. July 27 .- Flour firm and unchanged. INDIANAPOLIS MARKETS.

An Improving Trade, Firm Prices, and Promising Outlook the Features of the Situation. INDIANAPOLIS, July 27.

Prudent merchants seem confident that the daily improvement in trade is upon us and that days of dull business, for some weeks to come, will be few. The strong tone to prices on all staple articles is looked upon as being a favorable omen. Seldom do the markets move along from week to week without more marked flucmonths. Even coffees have not fluctuated in values as much since New Year's as they did last year, often in one week. Sugars are higher than a year ago, and should be, as the market has ranged so low that there was no money in it to anybody. Other staple articles range at about the same figures as at the corresponding period last year. The provision market, in a jobbing way, is quite active, and prices firm at the advance of Thursday. Hams and sides are in excellent demand. In a wholesale way but little is doing. The iron market is duli. Hardware men speak of trade as good, and the tone of prices firmer than early in the season. Leather-dealers are having a good business for July. There is more activity in the hide market, but prices fail to respond to the improvement. It is believed that later in the season better prices will prevail. The produce markets seldom present a more active appearance than at the present time. Produce of all kinds is arriving freely, and most of it is readily disposed of at good prices. Eggs, butter and poultry all steady and firm at quotations. The market is glutted with apples, and some good fruit sold to-day as low as \$1.25 per barrel, and choice apples at \$1.75 per barrel. Berries are scarce and prices nominal. Potatoes, and, in fact, vegetables of all kinds in abundant supply. The commission men now have home production to contend with, and prices are tending downward. There is a little more activity in the seed market, with unchanged prices.

The local market was flat to-day except for wheat, which seems to be in good demand. There were no bids on corn, and but one bid on oats. Bids ruled as follows:

Wheat-No. 2 red..... No. 3 red. July..... August September.... Corn-..... No bids Oats-No. 2 mixed August 3219 Rye-No. 2 48
Hay-Choice timothy. \$17.50 No. 1 timothy 17.00

strive to climb to the top:nost rung. Soso...Your puzzles this week are excellent. We return sincere thanks for them.

Plump and Rosy Babies "Had it not been for Luctated I' od our little baby

must have died. She has been using it for three months, and is a plump, healthy, rosy-cheeked baby."-Mrs. Mollie Lappin, Kokomo, Ind.

Sleep all Night Happy all Day

"We tried other foods, but finding none to agree with our little girl, we used your Lactated Food. She began at once to gain fiesh, and improved in health. To-day she is as bright, lively, and hearty as any child can be, sleeping twelve hours at a stretch, and waking up laughing every morning."-Wm. S. Travis, 12716 Sumach St., Toronto, Out.

Cutting Teeth Easily

"Lactated Food is an excellent food for teething children. My baby is using it and is cutting her teeth this hot weather without any trouble."-Mrs. Minna O. Brand, Iantha, Mo.

Saved from Cholera Infantum

"Our baby had Cholers Infantum, and until we tried Lactated Food, we could find nothing to stay on its stomach. It retained your Food without any trouble, and soon recovered."-Mrs. E. W. Logan,
